> Simple yet addictive gameplay> Music and sound effects added > Easy to learn controls, but hard to master> Features 100 levels + bonus rounds > Free to Play, but optional to buy; the game can be played without additional costs.> Notifications for game statistics and leaderboard Features: > A beginner-friendly game that everyone can play, even if they have no experience with classic strategy games> Play against friends through online leaderboards> Three game modes, each adding new challenges> Earn stars to unlock new game levels> Gameplay is accessible for all ages and abilities Description: A hero needs to regain the power in the dragon's lair.By using psychic powers, he can uncover the mystery behind the dragon's power and recover the legendary treasure hidden in his cave.Brave enough to defeat the evil beast? Game Features: > Classic "Monkey Island" style platforming puzzles> Gameplay is easy-to-learn, but hard-to-master> Multiple power-ups in the game> All sprites are hand-drawn Game Endorsements: > "The game is incredibly retro, and very nostalgic. There are quite a few people who, after playing for the first time, said it reminded them of playing classic games on their Gameboy." — MissBunny — Leading Gameplay Designer for "You're in the Movies", "You're in the Zoo!" and "Zootopia" > "The game is easy to

play, however you will need to pay attention to your surroundings and not the game at the same time. If you let the world around you get in the way you won't get far in the game." — TheLoonessBogus — YouTuber and BoxBagPuncher Instructions: > In-game controls are easy to learn, but difficult to master> The controls are extremely simple, making the game accessible for all ages> A game mode for each level, where you only need to clear a level to proceed to the next> The game is easy to start, but difficult to master Awesome little game, but it's a bit hard to get used to the controls. Very interesting to be able to play this kind of game with touch controls. Would recommend for all ages. A bit tricky at first but easy to pick up. The graphics are quite beautiful and I am sure the developer will add more levels and features c9d1549cdd

Arcade style game play - tons of replay value Player selectable leader Player selectable school colors Play against CPU or another human Teachers mode Leap mode Jellyfish hunt mode Scales mini-game Fish are names! Made in India, Game is Free to play but have ads The game is paid, NO ADS, but you can give suggestions to creators to make more fishes which you like on their site Pixel Fishies is a retro inspired game for 1-16 players. Lead a school of fish to eat food, grow, and destroy!Up to 16 players may compete on a shared screen. Each player starts by choosing a school to lead. Choose different schools to compete against each other, or the same school for co-op play. Move your leader to guide fish in your school. School fish generally follow their leader, but may seek food or attack other schools depending on their personality:Blue fish are the best hunters. The will seek food farther away than any other school.Green fish are the fastest. They can also swim at a steep angle.Yellow fish are friendly. They never attack other schools and stay close to the leader.Red fish are aggressive toward other schools. They will seek food, but are most focused on eating other fish.When two fish of one color contact a single fish of another color, the two fish eat the other color. All but the yellow school will use this property to pair up and hunt.Try to catch these power ups: Size: your leader can eat other fish without a partner Evade: no other schools can attack yours Shield: protects from jellyfish stun or squid capture Speed: all fish in your school move faster Add: +5 fish to your school Add: +10 fish to your school Add: +20 fish to your school Add +50 fish to your schoolSome critters you may eat: Plankton are the most common food source. Jellyfish are a good source of food for fish that avoid their tentacles. Starfish will release a substance which eliminates nearly all fish.As your school eats, your food meter will fill up. When full, a new fish will join your team!
