In an extreme situation, if you need to open a PNG file in Photoshop, you can use the save as Photoshop PSD option, which will result in a Photoshop file that contains a PNG file. Iron deficiency, iron metabolism and microbiome: the critical aspect of chronic renal disease. Serum iron and transferrin saturation are the best-established markers of iron status in patients with chronic kidney disease (CKD). However, these parameters are limited for assessing iron status and iron-related outcomes in this patient group. Newer biomarkers of iron status are needed for monitoring iron status of patients with CKD and developing therapeutic options to manage iron deficiency. Clinical and experimental studies indicate that the body's microbiome is a critical factor in iron status and its management. Microbiome-based recommendations for optimal iron status support the development of iron supplementation strategies to maintain iron metabolism in patients with
